

UNWG Charity Review Committee 2020

The charity committee has been working since January to evaluate the project proposals for this year. It has been a difficult procedure as everything was shut down in the middle of the evaluation and teams had to revert to communicating by emails and Zoom. We have a team of 42 individuals who participated in many ways, evaluating projects, proofreaders, researchers, team leads, and translators. I would like to thank the ladies on the team for their hard work and dedication. (List of team members follows.)

A total of 268 projects needed evaluation, of which 95 had insufficient documentation or did not fit our criteria. We then evaluated in detail 170 projects from Africa (86), Asia (25), Middle East and Northern Africa (12), Europe (17), Latin America (22), Austria (5) and Co-Action(3).

After evaluation, a project list of 19 projects was submitted and approved by team leaders, board, and members. Because the Bazaar revenue did not match our hoped-for expectations this year, we had less money to allocate than in previous years. There also was a concern that funds had to be retained for covering escalating future Bazaar expenses. The total cost of projects is 127,200.68€. The certificates for the projects will be handed out at the CRC Ceremony on Wednesday October 7th. The new application for 2021 will be put on the website in August.
